For any glass and glazing project Fire Glass Installation offer the full service from design, supply and installation. With our in-depth knowledge of specialist glass, we provide the supply and fitting of fire rated, safety, acoustic and general glass and glazing work throughout the United Kingdom.

We work as partners and project managers to architects and specifiers from concept to completion providing a wealth of knowledge and experience within the field.

Our professional installers are experts at working as part of the project team working closely with contractors and clients to ensure that all products are installed correctly, on time and to the specification.

Educating excellence and faith for a diverse generation
